Dr. Charlotte

As a hard-working physician with a strong work ethic, I know firsthand what it's like to spend long days in the office and not receive the monetary rewards for that time at work. This changed once I understood the CPT book and how to bill and code for every visit and procedure I performed.

I work with clinicians to learn real world strategies to master the CPT and ICD-10 Code Book. My auditing certification allows me to help verify that the chart documentation supports the level of claims submitted and keep in compliance.
